PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with a proven track record of architecting distributed backend systems, high-performance offline-first mobile applications, and automated cloud infrastructures. Combines strong analytical foundations in data structures and algorithmic complexity with modern software design patterns (Clean Architecture, MVVM) to build secure, concurrent, and highly scalable production ecosystems.

TECHNICAL SKILLS

- **Backend Engineering:** Java (Spring Boot), C#/.NET Core, Python (Django & FastAPI), Node.js (Express & NestJS)
- **Frontend Web Systems:** Next.js, React, TypeScript, JavaScript, Tailwind CSS, HTML5/CSS3
- **Mobile App Development:** Flutter (Dart), React Native (Expo), Kotlin (Jetpack Compose), Android Native (Java/XML)
- **Databases & Caching:** PostgreSQL, MySQL, SQLite, MongoDB, Firebase, Redis
- **Architecture & DevOps:** Clean Architecture & MVVM, Microservices & Modular Monoliths, AWS (EC2, S3, RDS, Route53), Git & GitHub CI/CD, Linux Administration, Kubernetes, Docker & Docker Compose, GraphQL, WebSockets / Daphne Channels, RabbitMQ, Relational Database Design

TECHNICAL PROJECTS

CoreBank (Full-Stack Digital Banking Ecosystem)

Technologies: Java (Spring Boot), Flutter, PostgreSQL, Redis, RabbitMQ, Docker, Git | [GitHub](#)

- Architected a distributed full-stack digital banking ecosystem utilizing a Spring Boot REST API and high-performance Flutter mobile client, enforcing Pessimistic Concurrency Locking to securely eliminate double-spending ledger race conditions.
- Engineered secure, hardware-backed device keychain authentication layers and built an event-driven RabbitMQ messaging pipeline alongside an immutable database audit log infrastructure.

WalletFlow - Financial Tracking & Budgeting Mobile Application

Technologies: Kotlin, Jetpack Compose, SQLite (Room), Dagger Hilt, WorkManager, Retrofit, Biometric API, Coroutines & Flow | [GitHub](#)

- Developed an offline-first financial mobile client using Kotlin, Jetpack Compose, and Clean Architecture (MVVM), mapping localized data updates reactively via Room DB and concurrent Kotlin Flows.
- Integrated Android's native Biometric hardware API for custom PIN-pad security, and implemented background threshold tracking alerts utilizing the Android WorkManager subsystem.

BCS Preparation Platform (Enterprise E-Learning Ecosystem)

Technologies: Django 5.2, Next.js 15, React 19, React Native (Expo SDK 56), PostgreSQL, Redis, Daphne, Celery, Nginx, Docker Compose, AWS EC2, GitHub Actions | [GitHub](#)

- Architected an automated multi-service exam SaaS preparation matrix combining a Django 5.2 ASGI Daphne runtime layer, Next.js 15 web client, and an offline-hydrated Expo React Native ecosystem.
- Deployed the fully containerized Docker Compose stack live onto AWS EC2 instances behind a host-level Nginx reverse proxy, driving automated zero-downtime rollouts and custom disk optimization volume purging via GitHub Actions CI/CD workflows.

PROBLEM SOLVING & ACHIEVEMENTS

- **LeetCode:** Active problem solver with 95+ solved data structure and algorithm problems (Profile: leetcode.com/u/bilashbiswas), demonstrating strong logical complexity analysis skills.
- **Competitive Programming:** Solved 230+ algorithmic problems on Beecrowd platform (Profile: judge.beecrowd.com/en/profile/386601).

PROFESSIONAL TRAINING

Industrial Control Technology on Instrumentation and Electrical Engineering — Training Institute for Chemical Industries (TICI)

Duration: 3 Weeks | Result: Grade A+

Core Modules covered: Instrumentation & Control Engineering, Electrical & Electronic Engineering, Mechanical Engineering, Industrial Safety & Health, National Integrity Strategy.

EDUCATION

B.Sc. in Electrical and Electronic Engineering — Islamic University, Bangladesh

CGPA: 3.27 / 4.00 | Passing Year: 2021 | Major: Electrical and Electronic Engineering

Higher Secondary Certificate (HSC) — Bankra Degree College, Jessore

GPA: 4.25 / 5.00 | Passing Year: 2016 | Group: Science

Secondary School Certificate (SSC) — Digdana Khashal Nagar Secondary School, Jessore

GPA: 4.81 / 5.00 | Passing Year: 2014 | Group: Science

PERSONAL DETAILS

Date of Birth: August 13, 1999

Nationality: Bangladeshi

Present Address: Senpara Porbota, Mirpur 10, Dhaka
